

Reminder – New Radiology Program Effective June 1, 2010

April 29, 2010

Dear WellCare of Texas Provider:

WellCare Health Plans, Inc.
The WellCare Group of Companies

In response to significant observed variation from evidence-based standards, professional society guidance and local peer performance, WellCare of Texas, Inc. has determined the need for medical necessity determination reviews for the provision of non-emergent, advanced outpatient imaging procedures.

Effective Tuesday, June 1, 2010, WellCare of Texas will require advanced notification for all non-emergent, advanced outpatient imaging services provided to Plan members. These medical necessity determination reviews will be required on certain procedures including: MR, CT, PET and SPECT.

We have partnered with CareCore National, LLC for clinical review of cases based upon their expertise in administering similar programs and their record of working effectively with the physician community. If a treating physician does not receive a Medical Necessity Determination and Authorization number from CareCore National prior to performing non-emergent, advanced imaging procedures, claims may not be reimbursed.

The Advanced Imaging Criteria utilized by CareCore Medical Directors have been vetted by an expert physician review board with relevant medical specialties to validate the criteria are in keeping with published research and guidelines from the appropriate specialty societies. This coverage criterion is available online at www.carecorenational.com.

You will need to obtain an authorization of services performed on or after **June 1st** at www.carecorenational.com or by calling CareCore National directly at 888-333-8641. Please note that CareCore National will begin taking authorization requests Monday, **May 17th**; however an authorization from CareCore National is not required unless the service is rendered on or after the **June 1st** effective date.

You may access information regarding the Imaging Program on our Web site at <https://www.wellcare.com/Provider/ProviderTraining>

If you have questions about this notice, please contact Provider Services at **866-687-8878** or CareCore National Customer Service at 888-333-8641, Option 4.

2211 Norfolk Street Ste 300
Houston, Texas 77098

Thank you for being a valued provider and for working with us to provide coordinated care services to our members.

Sincerely,
WellCare of Texas, Inc.
